Overall Score
Score 0-100 where 100=best environment for children.
The overall score measures how a country's environment can exacerbate risks for children, whether or not laws are in place to protect children and help them seek justice, if the government is committed to and capable of addressing sexual violence against children and the role that civil society and industry are currently playing in addressing the issue.

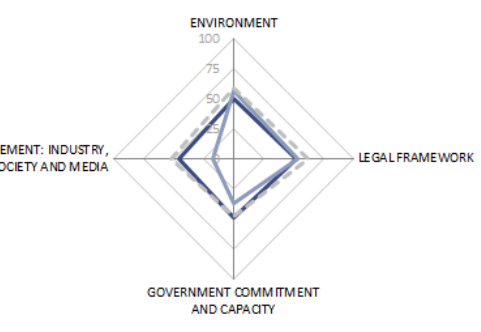

Score 0-100 where 100=best environment for children. Average is across the 40 countries included in the index.
